# FABRIC WALL DISPLAYS

Fabric frames allow us to produce custom interior environments at virtually any size. The beauty of the fabric frame is that custom signage can be applied without expensive installations, and an entire fabric sign can be updated with new graphics in minutes. Additionally, fabric prints can be backlit with our custom edge-lit fabric frames.

## Features:

- Lightweight & Compact
- Brilliant Color
- Single Sided Applications
- Wrinkle-Resistant
- Simple Installation

## How it Works

The Fabric Frame systems utilize a silicone gel bead sewn on the perimeter of the fabric sign. Working much like a screen, the gel is inserted into the metal track and is pressed in around the edge. The system is so easy that it requires no expertise to install which saves you time and money.
